THAT SETTLES IT.

Brought Into Competition With the

World's Best Carries

off the Honors.

At the great Centennial Exhibition of 1876 the leading products of all the branches of the world's industries were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest variety, representing the skill and the profound study of the age, and it may be of importance to you personally to know that the highest and only medal given to rubber porous plasters was awarded to the manufacturers of BENSON'S CAPSICINE POROUS PLASTER, by the following jury:

DR. W. M. ROTH, Surgeon-General Prussian Army.
J. H. THOMPSON, A. M., M. D., Washington, D. C.
C. B. WHITE, M. D., New Orleans.
ERNEST FLEISCH, M. D., Austria.

The decision was afterward confirmed by the medical jury at the late Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and Europe, quickly threw aside the old, slow-acting plasters they had been using and adopted Benson's in their regular practice. That physicians and surgeons of broadest reputation did this distinctly proves the intrinsic merit of the article. It is not more than twenty years ago that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capsicine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned. Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPSICINE cut in the middle. Seabury & Johnson, Chemists, New York.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible.

If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

Saved his Child.

17 N. E. St., Baltimore, Md. Feb. 12, 1883.

Gent:—Upon the recommendation of a friend I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption.

Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Toxics were required," and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."

NEW MEXICO.

New attractions are being offered daily for the Tenth-Millennial Anniversary Celebration, which opens at Santa Fe, N. M., on the 2d of July next. The territory abounds in curiosities and novelties. It is a foreign country under the American flag. The Indians, of which several bands will be present—Pueblos, Apaches, Navajos and Utes—are of themselves a study to any intelligent observer. The native Mexican population, presenting the modified characteristics of their Spanish conquerors, is scarcely less interesting, while American enterprise is aggressively impressing itself upon every industry of the Territory. A single year is accomplishing more development than a decade 100 years ago—more, indeed than an entire century that far back. It is a curious country, and one well worth seeing. Railroad companies will issue excursion tickets from all parts of the country, and it is a good time to visit New Mexico.

A WALL FROM MOTT STREET

New York is beginning to find out that the sons of the Orient whom they worshipped and whom they thought had been badly treated by the people of the Pacific Coast, are not what they expected, and a wall comes from the vicinity of Mott street to-day which indicates that even the Democratic worshipper of the pestiferous heathen, Charles A. Dana of the *Star*, was wrong when he said New York would gladly receive the down-trodden resident of China and give him all the rights and benefits accorded the most favored nations. We expect to hear soon that Hoar of Massachusetts is sick. Let the people at the East have 25 year's experience and endure what this coast has had to contend with and every Chinese east of the Rockies would be driven into the Hudson river.

EDITORIAL NOTES.

The press is making protests against the Mormon who pulled the hair of one of his five wives. Is not this a waste of sympathy? Any woman who will consent to be the fifth of a wife to any man ought to have every hair pulled out.

It is now the talk that the Chicago & Northwestern railroad is striking for the coast. It has a line to the Black Hills, and that is more than half way.

There was a time when the United States Senate might have been expected to take some notice of disgraceful proceedings like those indulged in by Senator Fair, but not now.

A women's petition against the proposed bill for legalizing marriage with a deceased wife's sister has been signed in every parish in the English diocese of Litchfield.

TELEGRAPHIC BREVITIES.

—At a fire in New Haven, Conn., last night, two firemen were killed and several others injured by a falling wall.

—Work was resumed to-day on the Washington Monument, and before the season closes, it is expected, 100 feet will be added to the shaft, which now towers about 320 feet in the air.

—Lizzie Robinson, alias Ralston, said to be a niece of Ralston of California, was picked up by the police yesterday and taken to the hospital, in Chicago.

—Ex-Speaker of the Assembly, John Egan, of Elizabeth, was lodged in the Essex County Jail last night, having been arrested on an indictment charging him with attempting to bribe Assemblyman Armistead of this city during the last session of the New Jersey Legislature.

—At Omaha yesterday a very heavy rainstorm, accompanied by terrific thunder and lightning began and continued several hours, doing considerable damage. A new brick building being erected by the Woodman Lumber Oil Company was undermined by water and demolished; loss, \$10,000.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

Damaged by Lightning—Fifteen Hundred Thousand Dollars in Property Destroyed—Six Lives Lost.

New York, May 10. The Standard Oil Works at Jersey City were struck by lightning early this morning. Seven oil tanks have already exploded. The fire is still raging with terrible force. More disasters are feared. The loss is estimated at \$500,000.

[SECOND DISPATCH.]

At 10 A. M. the fire was still raging and was near the tanks of the Jersey City track, where 150,000 barrels are stored. Thus far 500,000 barrels of oil has been destroyed; including 250,000 barrels of refined oil stored in storehouses. It is now thought the loss will reach \$750,000.

[THIRD DISPATCH.]

JERSEY CITY, May 10.

Chief Ferrier and a number of men were standing within 10 yards of a tank when it exploded and were saved almost by a miracle. Dropping the hose, which was soon burned to ashes, they fled for their lives. When they mustered together at a safe distance six of their number were missing. The smoke was so dense it was impossible to tell which way one was going, and it is thought that the unfortunate men ran down to the river and were lost. Their names are: John Herbert, Superintendent; Joseph Jenkins, fireman; —, cooper; George Davis, cooper; Henry Kegler, engineer; Dick Conklin, laborer; W. Curry, boiler-maker. Waves of flaming oil had rolled in upon the engine house, carpenter shop, machine shop, boiler and pump room, warehouses, cooper shop and blacksmith shop and they were a heap of ruins in an hour. Tank after tank was caught by the flames until seven out of 26 on the grounds were blazing. The tracks of the Pennsylvania railroad also caught fire, and several rolling tanks on the rails were only saved by having earth piled on the top of them. The bay was a sheet of flames and the trestle bridge on the railroad, about a quarter of a mile long, running from the works to Black Toms Island, was also burned down to the water's edge. No bodies have been found, for the heat renders close approach to the ruins impossible. The burning works extended, with those of Eagle refinery, about three-quarters of a mile along the bay and a quarter of a mile inland. The buildings that have been destroyed were situated in the midst of the tanks. The wind is blowing off sea, and therefore there is no danger of other tanks exploding. Had the wind been northerly the boarding-houses and Eagle works would certainly have perished also.

[FOURTH DISPATCH.]

JERSEY CITY, May 10.

The fire is now under control. It is thought the loss will exceed \$1,500,000. Twelve large tanks, 18 cars, six barges, one dredger, 8 docks and five brick buildings have been destroyed. The quantity of oil consumed is not known. Besides the Standard Oil Co., there are several other firms who each lose from 400 to 700 barrels.

A Murderer Executed.

PITTSBURG, May 10. Ward McConkey was executed here this morning in the jail yard for the murder of G. A. McClure, in Dead Man's Hollow, near McKeesport, Pa., on August 2d, 1881. The murdered man had goods stolen from his store, and had tracked the thieves, among whom was McConkey, to the Hollow, where he was afterwards found riddled with bullets. The murder created intense excitement and a vigilance committee was soon organized, who secured the woods, but the murderers eluded them, and several months afterwards McConkey was arrested in New York. The others have never been apprehended.

Wasson, the Defaulter, to be Cashiered.

GALVESTON, May 10. By the default of Major Wasson the Government is loser \$24,000, \$14,000 having been put away by Wasson before he left Washington. He took simply his valise along. His bondsmen will reimburse the Government. Wasson will probably be cashiered. Wasson is a West Point graduate. He graduated with General Grant, and is well connected socially. One of his relatives is the Minister to Japan. Wasson formerly stood very high in military circles.

Another Railroad Accident.

ST. LOUIS, May 9. A train on the Vanderbilt line in Nebraska, went through a bridge about four miles from Norfolk early this morning. Several men lost their lives. The wreck is a bad one and was caused by a washout. The cars are piled on end in the bed of the stream.

Sale of Valuable Cattle.

LEXINGTON, Ky., May 10. The Kentucky Importing Company sold 36 head of short-horn cattle of recent importation for an aggregate of \$14,600. The highest price paid for a single animal was \$1,000.

Reaping the Whirlwind—A Wall from the Would-be Protectors of the Poor, Down-Trodden Mongolian.

New York, May 10.

As the facts concerning the habits of the New York Chinese inhabitants are being brought to light the community are beginning to realize for the first time what the Pacific Coast has been suffering for years. The policemen in the vicinity of Mott street give the Chinese bad characters. According to one intelligent officer they are worse than the Italians, their predecessors, ever dreamed of being. In their present habits they are considered by the police to be a good deal lower than beasts, and every respectable person whom the reporter saw agreed that they were a curse to the neighborhood and cause untold misery and disease. One of the members of the Transfiguration Association said after the meeting last night that he went to Police Captain Petty, in Elizabeth-street Station, and informed him that scores of young girls were being decoyed into Chinese opium shops, and there ruined. He said Petty threatened to lock him up if he did not leave the station at once. On Sunday the place swarms with Chinese from all parts of the city and from out of town, who make of the neighborhood a perfect hell. Women and young girls cannot go through it without being insulted in the vilest manner. Every evening women and girls can be seen coming out of Chinese dens, staggering from the effects of their debauchery. From the rooms of the association mentioned sights are seen, almost every night, which the neighbors can no longer tolerate. Father Barry estimates that hundreds of little girls have been irretrievably ruined within the last year. It is well known here that in almost every Chinese laundry in the city there are special facilities for those desiring to "hit the pipe." Dens are visited daily by white men and women, and the latter have been outraged by Chinamen, while under the effects of the drug.

An Important Decision by Secretary Teller—The Crows to be Removed to the Valley of the Big Horn—Fencing in Public Lands for Grazing Purposes to be Stopped.

WASHINGTON, May 10. Secretary Teller rendered a decision to-day, in which he holds that the Act of June 3, 1878, in which permits the sale at the minimum price of \$2.50 per acre of lands valued principally for their timber and unfit for cultivation, does not apply to timber lands which may be rendered susceptible to cultivation by ordinary farming processes. Such lands, the Secretary says, are not within the purpose of this Act, which is intended to embrace within its provisions timbered tracts only on broken, rugged, or mountainous districts, with soil unfit for ordinary agricultural purposes when cleared of timber.

Special Agent Melburn of the Indian office will leave Washington to-morrow for the Crow Indian Reservation, in Montana, where he will co-operate with the resident agent in making arrangements for the removal of the Crows to the valleys of the Big Horn and Little Big Horn, in compliance with the action of Congress.

The Commissioner of the General Land Office has received complaints from the Postoffice Department that cattle-herders in Nebraska have recently enclosed with fences, for grazing purposes, a large tract of public land, and thereby cut off an important mail route. The case is being investigated, and it is thought at the Interior Department that the measures about to be taken will result in breaking up this unlawful practice of fencing public lands, a practice which has lately grown to be a serious evil.

A Quarrelsome Negro Accidentally Kills a Fine Animal.

LOUISVILLE, Ky., May 9. At the stables of the Fair Association yesterday afternoon Nathan Bruce, a negro, became involved in a quarrel with another negro, and drawing a pistol attempted to shoot him. A third party struck his arm as the pistol was discharged, the ball going through a plank into the stable, striking a fine young mare in the neck, killing her instantly. The mare was the property of Edward Wilder of this city and valued at \$4,000. She was by Jim Monroe, dam by Whirlwind, and had shown good speed.

Gen. Crook Still on the Trail.

EL PASO, Texas, May 10. Neither Mexican nor our officers have yet received any intelligence of or from General Crook. Colonel Unda, at Has-Del-Norte, has directed the establishment of a courier line from Janos to Cuernavaca, on the Mexican Central. It is in this direction that the Mexicans expect to receive the first definite news, but our officers believe General Crook will communicate from Guadalupe Canyon.

Gaming Houses Closed.

MEMPHIS, May 9. The act passed by the Legislature making gambling a felony went into effect to-day. All gaming houses in this city closed their doors this afternoon.

Senator Fair Interviewed—Merry He Got Into the Newspapers.

SAN FRANCISCO, May 9. Senator Fair, in a communication this afternoon with an Associated Press representative, regretted bitterly and keenly the notoriety given a matter so exclusively concerning himself and wife. He said: "I am the man, and am willing to bear all the odium which the public, in its ignorance of the facts, may choose to cast upon me, but my regret is for my wife, whose name should not be associated with and incorporated in dispatches transmitted all over the country. Now, as always, my desire is to do that which will contribute to the happiness of my wife and children. If I have in anyway failed in goodness it has not been prompted by a desire to do them any wrong. Now, as ever heretofore, I want to do that which will best contribute to the happiness of my family. If my wife thinks a separation will contribute to her further happiness, then her mind and mind are alike. I have done nothing to merit the obloquy cast upon me. Those who best know me will tell you what my desires are in this matter. God has blessed me with wealth, and I have never used it for any mean or unmanly purpose. My heart and hand have always been open to those in distress, and will continue to be to those who seek and require my help. I repeat, that in this matter with my wife, which has been made so public, I have nothing to say further than that it pains me to see her name and mine associated with such dastardly and vindictive dispatches as have gone forth to the world. I am the man, she is the woman, and in those relations I will shield her name at every point in my power."

The Knights Templar Conclave.

SAN FRANCISCO, May 10. The Triennial Committee opened business at their new headquarters, No. 26, Montgomery street, yesterday. One suite of rooms is occupied by the Grand Commander. Ex-Governor Perkins and Grand Captain General R. A. Lloyds and Sir Knight Booruck are in charge of the journalistic department. It has been arranged that no person, claiming to represent a newspaper, will be admitted except on credentials satisfactory to the committee. The committee has decided not to allow any one paper to be the official organ.

Change of Management—A Jury of Millionaires.

SAN FRANCISCO, May 10. Ex-Sheriff Sedgwick has assumed the management of the Palace Hotel, succeeding A. D. Sharon, who has been obliged to leave the city on account of serious illness. The millionaire jury case of Sullivan Riley, the pugilist, thrice tried for the robbery of Patrick McDonald, has been convicted. Riley has had the honor of being tried by a jury representing greater wealth than probably ever sat in court in this city.

It was agreed that the price of tickets should be \$2, which would include all privileges to the ground. The picnic will take place at Treadway's Park, Carson. THE SPIKE SHOOTING.

The Result of The Coroner's Inquest.

LAKE CITY, May 6.

Editor Gazette:—I send you the following further particulars of the shooting after which occurred here on the 4th inst. Justice Saunders of Camp Bidwell came down on the stage Saturday morning and empaneled a jury to inquire into the cause of the death of Chas. Delano.

This jury was composed of the following well-known citizens: Ezra Brown, H. Barclay, C. S. Thomas, Wm. Milton, Horace Woods, Henry Woods, A. P. Duckworth, G. W. Johnson, A. E. Fraser, W. J. Dawson, G. W. Wimer, T. P. Cannon. Paul Brown of Bidwell testified that he visited the scene of the tragedy with Shirley Wilson and John Wheeler, and found the body of Delano lying near a clump of greasewood plant, five rods from the wreck of the corral; saw a hat with a bullet-hole through the rim and a hatchet. These articles were lying near the corral. Witness saw blood in three places on the ground between the point where the hat and hatchet were found, and the body. Saw marks in the mud where Delano had fallen on his knees. The testimony of Wheeler and Wilson was identical in every particular. Deputy Sheriff Barber testified that C. C. Spike surrendered to him about 2 o'clock on the day of the shooting, telling him that he had shot Delano; that Delano had torn down his corral, or, rather, while Delano was in the act of so doing, Spike approached and remonstrated with him, charging Delano with robbing him of the land. Delano called him a liar. Spike then called Delano a lying s— b—, whereupon he fired upon Spike, who promptly returned the fire. Delano started off, turned and tried to fire again. Spike fired four more shots, following Delano. Barber further testified to finding a pistol near the body of Delano, and described it as a "Union Jack," No. 2, calibre, 32.

On examination the body of deceased showed three pistol-shot wounds—one through the right forearm and two through the head. One ball entered the head near the ear, lodging in the head at a point near the opposite side. The other ball passed entirely through the head, entering the brain over the left eye, evidently causing death instantly. The jury rendered a verdict that deceased came to his death from wounds received at the hands of C. C. Spike. Soon after the rendering of this verdict G. W. Wimer filed a complaint against Spike, charging him with the crime of manslaughter. He was arraigned, and after a most rigid examination was discharged. The testimony of the accused was consistent, connected and truthful, and many particulars where corroboration was possible his testimony was verified completely by the witnesses for the State. The defense was conducted by Wallace & Spencer. There is some feeling manifested in the neighborhood of Cedarville against Spike, and some slight fears of violence are expressed by the timid. SWAMPER.

ITS TRUE INWARDNESS.

The Pope Gives Mrs. Fair a Dispensation—The Terms of Settlement Already Agreed Upon.

The truth of the Fair business is coming out. A private letter to the GAZETTE says: M. N. Stone of Virginia is Senator Fair's lawyer in his divorce case, but I tell you none of the lawyers will make a harvest out of it, for it is all settled between the high contracting parties, to my certain knowledge. The Senator will not contest the case. Mrs. Fair, nee Miss Rooney, has obtained a dispensation from the Pope, and it cost her a good slice of her alimony. She, being a good Catholic, would not violate the canon prohibiting divorces, and it costs money to set aside the laws of the church.

A Musical Treat.

Wm. Haydon Tilla, the distinguished tenor, who has sung with some of the most prominent English Opera Companies in the country, will appear at the Nevada Theater next Saturday evening.

His profession has been gained solely by intrinsic merit. His wife is with him, and she is one of the most pleasing little bodies on the stage. She sings exquisitely, and always makes friends. Those who miss hearing these world-renowned artists will miss a rare treat. Mr. Tilla is making arrangements to allow the pupils of both seminaries and the public school to go at reduced rates—a very generous proposition on his part. Secure your seats to-night, for the house is sure to be crowded.

Card of Thanks.

About 40 of the young lady boarder pupils of Mt. St. Mary's Academy took a trip to Carson on Tuesday last, and Mother M. Dolores desires to return sincere thanks to Mr. Yerrington for special low rates; to Warden Bell, Captain Farnum and Mr. Stoddard of the State Prison for kind and courteous attention and hospitality; to Mr. and Mrs. Mills of the State Orphans' Home for rendering a brief visit exceedingly pleasant for the pupils; to Judge Leonard and D. A. Bender for kind attention to the party, and last, but not least, to conductor Havenor for considerate attention.

ATTEMPTED ROBBERY.

A Stage Driver Compels Highway-men to Retreat.

Wednesday morning about 1 o'clock, says the Truckee Republican, as the stage that runs from Dutch Flat to the depot, to carry passengers, express and mail, the driver was considerably astonished to find himself confronted by three men, who demanded of him whatever wealth and valuables were in his possession. George Secord, the driver, whipped up his horses, and at the same time pulling a pistol opened fire on the would-be road agents, who retreated in good order. The affair created the wildest excitement, and dispatches were quickly sent to all the important places within reach. One of these messages reached J. N. Thacker of the Wells-Fargo force, and who was on the train en route for Butte City, and also the further information that the would-be robbers were likely on that train. On the arrival of the train at Truckee Mr. Thacker proceeded to arrest three suspicious characters, and with the aid of Constable Leach soon had them lodged inside the jail. Two of the arrested parties yielded up quietly to arrest, but the other was disposed to show fight. The exposure, however, of a British "bulldog" soon quelled his disposition to fight, and he also yielded.

TRUCKEE NOTES.

Scraps of Interest From a Section of Our Common Country.

The Republican of May 9 contains the following interesting jobs:

An immense amount of freight is being received at the depot for Tahoe and Sierra Valley.

The camps are beginning to look lively, and a few days of such weather as to-day will make things hum.

The Truckee Lumber Company will in a few days commence building a two-mile railroad track on Bear Creek. It will be used for logging, with horses.

The walking fever still prevails. It is now proposed to get up a go-as-you-please to Sacramento, 119 miles. It is to be hoped that the match will be made.

The Grand Central at Tahoe will open on May 14th. Extensive improvements have been made during the past winter. Side wings to the wharf have been built, six new boats have been added for the free use of guests.

A man named Thomas Boyle, who for some time past has been stopping at the American, died suddenly at a lodging house on Church street last Sunday. He had been up and around during the day, but complained of not feeling well. He went to bed and soon grew so much worse that Dr. Goss was called in, but Doyle died soon after. His physician pronounced his malady pneumonia.

Chinese at Truckee.

The statement that the mills now in operation here employ Chinese crews is not true, as every man in Truckee knows. There is a certain class of work about every mill that is done by Chinamen, but all the skilled labor is done by white men who receive good wages therefor. It is a well known fact that the number of Chinese now at work in this vicinity is fully 50 per cent less than three years ago. As soon as all the mills are in operation and work can be commenced in the woods no man who really wants work need remain idle a day.

A Chance for the Drummers.

The managers of the Terlio-Mellennial Anniversary, which opens at Santa Fe, New Mexico, on the 2d of July, have set a day apart for commercial drummers. A grand tournament dedicated especially to the commercial missionaries of the United States and Mexico has been arranged and this class of active men will no doubt take advantage of the inducement offered to turn a stream of business our way.

Smelting Works.

Frank Green will shortly erect smelting works at Battle Mountain. He will smelt ore for \$20 per ton. If Mr. Green would put up his works on the Truckee river where prospectors at the South and North could be benefited, he would never be short of business. Wood is cheap, power free and ore abundant.

The Fence for Cattle Ranges.

G. W. Cunningham has the right of the Butler tubular iron post for wire fences for Humboldt county. The farmers of Humboldt county will find Mr. Cunningham a reliable and pleasant gentleman. He will stop at Lovelock's and Bye Patch a few days, then go to Winnemucca.

Change of Time on the C. P.

It is said that owing to a change of time on the Union Pacific the train that now arrives in Reno at 8:30 p. m. will get here at 6:30 a. m. By this arrangement the east and west trains will meet here. The matter is not definitely settled, but the arrivals will be about as stated.

The Rich Streets of Reno.

The early birds this morning caught the worm. A man fished up five dollars in front of the White House, and following him came others who gathered \$15 in small change. Reno is a good town for the early-riser.

at the altar of suffering humanity. Dr.
SPINNEY will guarantee to forfeit \$500

private disease of any kind or character

MIDDLE-AGED MEN.

There are many at the age of thirty and
sixty who are troubled with too frequent
evacuations of the bladder, often accom-
panied by a slight smarting or burning
sensation and a weakening of the system
in a manner the patient cannot account
for. On examining the urinary deposits a
ropy sediment will often be found, and
some small particles of albumen will ap-
pear, or the color will be of a thin pinkish
hue, again changing to a dark and torpid
appearance. There are many men who
die of this difficulty, ignorant of the cause,
which is the second stage of semi-
weakness. Dr. S. will guarantee a perfect
cure in all such cases, and a healthy
restoration of the genital-urinary organs.

TAILORING

ESTABLISHMENT.

MY REPUTATION AS A TAILOR
is already established. The Boss
Tailor lives in all country towns. They
advertise shop-worn auction goods; they
dispose of cloths not saleable in the larger
cities, and are continually trying to mis-
lead their patrons by false representa-
tions. There is no exception to the rule.
She has a "Boss Tailor," but look at a suit
made by the Virginia street "Boss" and
you will immediately see the point.

MY STOCK

is care fully selected. It is of the very best
of Foreign and Domestic Manufacture and
I am prepared to make suits of the latest
style, cut from the finest goods, at prices
never before equalled. My work speaks
for itself. I guarantee a fit in every case.
Call and examine my samples and prices.
Leave your measure and be happy. Don't
be misled by the "Boss." You will al-
ways regret it if you do. Before giving
your order call at my shop and see for
yourself.
